

“Please help families like Ana’s by making a donation to the Ronald McDonald House today!”

We have been coming to RMH for about four years and everytime mom says we are staying at RMH I get so happy, It's too bad that you cannot bring your dogs from home but the therapy dogs are just as good. The beds and the couches are so comfy. My favorite rooms at RMH are the reading room and the big tv room. I like the reading room because I can play games with my mam and dad. I like the big tv room because we can eat in it and the other tv rooms you can not eat in them.

I have fun with the others kids here because they have problems with some thing and they know I have problems with some thing too. We sometimes have good food and sometime it's not so good. I call it home because ours is six hours away from FT Worth. The Ronald McDonald House is so close to my hospital and my doctor. It's better than being six hours away for them.

I hope I get a kidney soon I love Ronald McDonald House.

Sincerely Ana Lynne Cole
